As more countries introduce digital-nomad, talent, and startup visas, people face increasingly complex requirements and fast-changing rules. This combination—growing demand to move abroad and rising administrative complexity—creates a clear opportunity for a tool that helps users identify the right visa, understand eligibility, and navigate each step with confidence. A streamlined matching app aligns directly with these global trends and meets a rapidly expanding need.

1. **Intro:**

"Migrately" is an app (web/native tbd) that helps people wanting to move abroad, by finding the correct visa, and by breaking out the application process:

- (MVP) find suitable visas based on their personal information
- (MVP) help track visa application steps, providing requirements, insights, tips
- (TBD) provide referrals to lawyers, translators, insurance, relocation services

High level:

- The app should take new users through an onboarding wizard that collects their profile information.
- The app should then match the user profile details against visa requirements to find suitable visas and countries.
- The app should offer the ability to
    - discover countries based on eligible visas aka "where can I go?"
    - discover visas in a desired country and assist with eligibility aka "I want to move to…"
- The app should allow the user to start a visa application "pathway" and track the sequential steps, documents, and process

2. **Assumptions:**

- We must match profile information against visas and visa requirements
- We do not apply for visas for the user
- We do not offer legal advice
- We do not offer any guarantees on visa information or user eligibility

3. **Monetization:**

- (MVP) Annual plan to access gated premium features of the app
- (TBD) Affiliate / Referrals

Pricing model:

- Two tiers:
    - Starter (free) - create profile, explore countries/visas, find eligible visas, save a pathway
    - Premium (paid annual): save multiple pathways, family members, track application steps, visa insights, requirement explanations, "fix-this-to-qualify", document details, optional requirements (strengthen application)

4. **Features**

User Profile

- Name
- Age

- Residence country
- Other citizenships
- Marital status
- Education level
- Employment status
- Income
- Languages
- Work experience
- Criminal record
- Remote work eligibility
- Number of dependents
- Number of family members

Countries

- Name
- Flag
- Picture
- Cost of living

Visa Discovery

- Search by profile
- Search by visa name or country
- Filters (country, category)

Visa Evaluation

- Requirements
- Conditional requirements (meet X or Y)
- Optional requirements
- Eligibility

Pathways

- Start visa (pathway)
- Progress indicator
- Required documents
- Steps
- Detailed requirement explanations - premium
- Detailed Conditional requirement explanations - premium
- Optional requirement explanations - premium
- Document explanations - premium
- Fix-this-to-qualify - premium
- Insights - premium
- Family members - premium

Notifications

- In app (web)
- Email

Admin Panel

- Edit visa metadata
- Edit requirements

- Edit conditional groups
- Edit document requirements
- Edit application steps

5. **Deliverables:**

Screens:

- **Landing screen** - marketing/splash page
  - Gradient background with pattern overlay
  - Hero text “Follow your dreams. Move abroad to” with transitioning last word “ie Live > Work > Retire > Escape > Relax > etc”
  - Get started button

- **Login Screen** -
  - Magic link field/button
  - Social sign in

- **Home Screen** - default page, shows visas and countries to discover matching your profile, starts application pathways, tracks saved/bookmarked items
  - Random country image slider
  - Profile completion card
  - Primary CTA: Discover visas (slider)
    - Visa information
    - Eligible button > to pathway
    - Explore button > to details and fix this to quality (upgrade CTA)
  - Secondary: Discover countries (slider)
  - Upgrade CTA (Basic only)
  - Bottom NAV (Home, Visas, Notifications, Profile)

- **Visas Screen** - shows in process pathways
  - Pathway progress bar
  - Requirements section (expanding)
    - List requirements
    - Details (paid only)
  - Documentation section (expanding)
    - List requirements
    - Details (paid only)
  - Steps section (expanding, paid only)
    - Check off in order
  - CTA upgrade button on open section

- **Notifications -**
  - Slider with recent notifications on updates
  - Dismiss button

- **Settings Screen -** update profile, manage subscription
  - Profile editor
  - Notification settings
  - Subscription status / badge

    - Data management / delete account
    - Logout

- **Admin Screen** - management of visas, requirements, documents
    - Desktop app
    - Pages for visas, requirements, documents
        - Tabs for specifics
